

# Success Schedule Exchange

## Save time and increase efficiency with the seamless integration of your estimates and schedules

The ability to respond quickly to the inevitable changes in your budgets and schedules is critical to the profitability of your project. If your company's process is less than ideal, it's **time to consider a powerful estimating solution that integrates easily and seamlessly with your schedule.**

**Success Schedule Exchange** provides users with a flexible data exchange engine which allows for the straightforward synchronization of your **Primavera® Schedule** and your **Success Estimate** in one simple, robust solution ... not only saving time but increasing the efficiency of both applications.

### Key Features & Benefits

#### Accelerated Estimate Creation

Estimators can now instantly create work breakdown structure directly from a Primavera schedule. Likewise, schedulers can automatically transfer budget cost and resources from an estimate to a schedule. *Eliminate redundant data entry, save time and improve cost control.*

#### Powerful and Simple Interface

Instantaneous data exchange is now possible with the powerful Schedule Exchange interface and requires minimal set-up. *Increase the productivity of your team members while improving communication.*

#### Flexible Data Transfer Options

Configure the data exchange between **Primavera® P6** and **Success** to meet your needs. Create, update and delete folders, resources and costs to conduct what-if scenarios and predict changes in real-time. *Manage your project more efficiently and cost-effectively.*

*"Processes that once took days and weeks can now be accomplished in minutes using Schedule Exchange."*

*— Phil Hogsflesh, Group Head, British Nuclear Group*
